Summary: On March 26, 2003, Richard Severy, Regional Executive for WorldCom, Inc., met with Robert Wullenjohn, advisor to Cmmr. Brown, in San Francisco. Also present was Peter Casciato, counsel for Time Warner Telecomm, Inc. Written materials (attached to the notice) were used. Severy and Casciato urged approval of the application for rehearing of the final decision on the Public Utilities Code Section

709.2(c) inquiry filed on January 29, 2003. Severy and Casciato urged that SBC be required to report on its performance of both interstate and intrastate special access services. Severy and Casciato explained the importance of special access services to interexchange carriers, competitive local exchange carriers and retail customers. Severy explained that the Commission has the authority to require SBC to report on its performance of interstate special access services. Severy and Casciato also objected to SBC's inclusion of new 'factual' assertions in its February 13, 2003 response to their application for rehearing.

4/2/03 A02-03-059 Pacific Bell Telephone Company (U 1001-C), for Arbitration with Pac-West Telecomm, Inc. (U 5266-C) pursuant to Section 252(b) of the Telecommunications Act of 1996.

Summary: On March 28, 2003, David A. Simpson, Counsel for the California ISP Association (CISPA), met with Cmmr. Brown in San Francisco. Also present were Lester Wong, advisor to Pres. Peevey, Robert Wullenjohn, advisor to Cmmr. Brown, ALJ Reed, and Mike Jackman, Executive Director of CISPA. Peter Engdahl of Snowcrest, Inc., attended the meeting via telephone. CISPA advocated against the adoption of Cmmr. Brown's alternate decision on the grounds that it would be economically detrimental to rural-based ISPs, would lessen competition in the CLEC market and it had not involved the participation of ISPs.

Summary: On March 27, 2003, Brad Jenkins, President for O1 Communications, Inc. (O1), met with Cmmr. Kennedy in San Francisco. Also present were Pete Engelken, Chief Financial Officer, Keenan Davis, General Counsel, of O1, and John Clark of the law firm, Goodin, MacBride, Squeri, Ritchie & Day, LLP. Written materials (attached to the notice) were used. O1 explained the devastating effect that requiring full TELRIC-based compensation to be paid to SBC Bell for transporting VNXX traffic would have on O1. O1 also addressed the supposed economic and legal justifications that have been proffered for the imposition of VNXX transport charges. From the legal standpoint, O1 criticized the argument that VNXX transport charges are permissible under the Federal Communications Commission rules that forbid originating carriers from imposing charges for traffic that is subject to reciprocal compensation because VNXX is an interexchange service.

Summary: On March 28, 2003, John Sumpter, Vice-President Regulatory, Pac-West Telecomm, Inc., met with Jacqueline Reed, advisor to Cmmr. Brown, in San Francisco. Also present was Theresa Cabral, Counsel for Pac-West. Written material (attached to the notice) was used. Sumpter stated that federal law does not allow originating carriers to charge terminating carriers for local calls and it is not appropriate to create a hybrid definition for calls that are sometimes 'local' and sometimes 'toll'. Sumpter also explained the consequences of the Cmmr. Brown's alternate on Pac-West and its customers.

4/2/03 R02-01-011 Order Instituting Rulemaking regarding the implementation of the suspension of direct access pursuant to Assembly Bill 1X and Decision 01-09-060.

Summary: LATE FILED. On March 19, 2003, William Stock, Chief, Regulatory Relations, Pacific Gas and Electric Company (PG&E), met with David Gamson, advisor to Cmmr. Brown, in San Francisco. Also present were David Rubin, Director, Service Analysis, Dennis Keane, Manager, Service Analysis, and Erik Jacobson, Manager, Regulatory Relations, for PG&E. Rubin and Keane explained that both Modesto and Merced Irrigation Districts provide selective service in areas where they have the opportunity, but not the obligation, to serve (whereas, PG&E has the obligation). Rubin and Keane explained further that the record demonstrates that the Department of Water Resources (DWR) assumed that IOUs would serve new load in their service areas and did not net out any assumed loss of IOU load to public agencies. Rubin and Keane noted that '*de minimus* impact' arguments could be used by any individual customer or group of customers to argue for exemptions that shift costs unfairly to others. Rubin and

Keane argued that, consistent with AB 117 and D02-11-022 the DWR bond and power charges should be applied to all load departing after either January 17, 2001, or February 1, 3001, and noted that there is no policy reason for capping the charges to customers that depart to public agencies.

Summary: LATE FILED. On March 11, 2003, William Stock, Chief, Regulatory Relations, Pacific Gas and Electric Company (PG&E), met with Robert Kinoshian, advisor to Cmmr. Lynch, in San Francisco. Summary: LATE FILED. On March 10, 2003, Brian Cherry, Directory of Regulatory Relations, Pacific Gas and Electric Company (PG&E), met with Kevin Coughlan, advisor to Pres. Peevey, in San Francisco. Also present were Willima Stock, Chief, Regulatory Relations, and Dennis Keane, Manager, Service Analysis, for PG&E. Keane explained that both Modesto and Merced Irrigation Districts provide selective service in areas where they have the opportunity, but not the obligation, to serve (whereas, PG&E has the obligation). Keane noted that ALJ’s September 27, 2002 ruling denying CMUA’s motion for summary disposition rejected Modesto’s argument that the Department of Water Resources (DWR) rate agreement prevents the Commission from reaching a determination that customers that come to be served by public agencies are obligated for DWR costs. Keane explained that the record demonstrates that DWR assumed that IOUs would serve new load in their service areas and did not net out any assumed loss of IOU load to public agencies. Keane argued that, consistent with AB 117 and D02-11-022 the DWR bond and power charges should be applied to all load departing after either January 17, 2001, or February 1, 3001, and noted that there is no policy reason for capping the charges to customers that depart to public agencies.
